

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
OFFICE OF THE SECRETARY  
BOARD ON GEOGRAPHICAL NAMES  
WASHINGTON

*Adkinson*

OCT 6 1943

Mr. Charles Westcott,  
122 Chestnut Street,  
Springfield, Massachusetts.

My dear Mr. Westcott:

The United States Geological Survey has referred your letters of August 31 and September 20 concerning the application of the name Sacramento Mountains to us. Our decision is one of long standing and we wish to secure the opinion of other interested Government agencies before considering a change. Each of the component parts of the Sacramento Mountains has a well established name which can be used unless you wish to refer to the entire group. If that is desirable, the term Sacramento Mountains is still officially correct. As soon as a decision has been reached concerning this problem, you will be informed of the Board's action.
